

Release Notes as of March 27, 2009

OD Pro 5.1.0.40 Summary of Changes:

VI Ref.	Description of Change
2399	Ability to import / attach scanned images (JPG, PCX, TIF, GIF, BMP). <i>Scanner image files may be imported in the Patient Address View and will be listed in the browse tree. All images may be viewed by double clicking on its component item in the browse tree.</i>
2634	Visions – Ability to perform VSP Knowledge Transfer
2643	Foundations – After service pack to build 40, the notes field showed empty. This has now been fixed; new and old notes now show. <i>New Notes may be saved in the Patient Address View and will be listed in the browse tree. All Notes may be viewed by double clicking on its component item in the browse tree.</i>
